Subject : Counterfeit Products

Dear Mr. Orlando

Recently, we have identified a Plumbing Distributor in the southwestern region of Italy reselling a counterfeit version of an obsolete design of our Square D FSG2 Pressure Switch.

As a valued commercial partner, we would like to inform you that we have already acted on this matter as we will not tolerate any practice that attempts against Intellectual Property Laws and Regulations whether it is locally or internationally.

For instance, our legal department has officially notified such organization that we are aware of their operation, warned them about the violations to our Right of Intellectual Property and prompted them to stop this unlawful practice immediately.

We thank you for your comprehension and your support on this matter. We will be reaching out to you with more details about the progress of our actions and with information on how to identify a counterfeit product.

Finally, we confirm that Orlando Srl is selling our original Square D FSG2 Pressure Switch.

Sincerely,

SCHNEIDER ELECTRIC S.P.A.
